To the Chairman and Members of the Kington Urban  
District Council.

Mr. Chairman, Madam, Gentlemen,

I have pleasure in presenting my Annual Report  
for the year 1966, together with the report of the Public  
Health Inspector.

I would like to thank Mr. Allen for his help  
and cooperation during the past year.

G.D.K. NEEDHAM

NATIONAL ASSISTANCE ACT, 1948, Section 47NATIONAL ASSISTANCE (AMENDMENT) ACT, 1951

No action needed to be taken under this section during the year.

PUBLIC HEALTH INSPECTOR'S SECTION OF REPORT

Public Health Circumstances and Inspections

It has been more noticeable than ever this year, that duties included under my appointment as Building Surveyor have taken up more of my time and in addition, extra duties have been included in my work as Public Health Inspector, due to increased legislation that has to be implemented; consequently some routine inspection work has had to be curtailed.

WATER SUPPLY

Source - spring at Crooked Well, Kington, augmented as and when needed from a nearby borehole and from a link-up with mains supplying the surrounding rural area. Some properties in the outlying area continue to be supplied from private wells and springs.

Quantity - has remained ample for the needs of Kington generally. Properties in the Hergest Road area which are fed via a pressure unit, had an intermittent supply of water on several occasions when this unit broke down. A new 3" main has now been laid in the area, and properties affected will eventually be connected to same.

Quality - This has been satisfactory with one exception. The exception was whilst maintenance work was being carried out at the Crooked Well pump house when a sample was taken. A review of the arrangements for chlorinating the water and recording residuals at Crooked Well has been made since the receipt of the report of the unsatisfactory sample.

The results of samples taken are as follows:

| No. of samples taken    | Results of samples |                |
|-------------------------|--------------------|----------------|
|                         | Satisfactory       | Unsatisfactory |
| 12 from Mains supply    | 11                 | 1              |
| 3 from Private supplies | 1                  | 2              |

No. of houses supplied by public water mains direct to house: 657

No. of houses supplied by public water mains by means of  
standpipe: 4

No. of houses supplied by private undertaking: 6

No. of houses supplied by wells and springs: 8

DRAINAGE AND SEWERAGE

Sewage Disposal - The sewage disposal plant (as described in last year's report) has continued to give satisfactory service.

Samples of effluent - Whilst no samples of effluent discharged into the River Arrow from the sewage works have been taken by my authority, the River Wye Board have been taking regular samples of the effluent and have forwarded copies of the reports they have received. All of these reports have been satisfactory.

| No. of samples taken | Results of Samples |                |
|----------------------|--------------------|----------------|
|                      | Satisfactory       | Unsatisfactory |
| 6                    | 6                  | Nil            |

Drainage - A letter was received from the Wye River Authority regarding the unsatisfactory conditions caused by the storm sewage discharge into the River Arrow below the bridge at Bridge Street, Kington. Plans had already been drawn up for a new length of sewer and a new point of storm water discharge which would comply with the River Authority requirements. This work was completed before the end of the year and conditions are now satisfactory.

No. of houses connected to the public sewer: 587

No. of houses connected to a satisfactory private disposal works: 59

No. of houses using chemical or pail closets with satisfactory disposal: 29

No. of houses using chemical or pail closets with unsatisfactory disposal: Nil

REFUSE COLLECTION AND DISPOSAL

A weekly collection of household refuse has been maintained from dwellings in the area. Business properties in the centre of the town have their refuse collected twice weekly. A side loading vehicle is used. A kerbside collection is operated and carried out by direct labour. One driver/loader and one loader is employed on this vehicle.

Refuse is disposed of by means of controlled tipping on old sewage works contact beds. Some inconvenience has been caused to occupiers of one residence outside the Urban district boundary from smoke due to spontaneous fires on this tip.

Owing to the shortage of tipping space, the Council made application to the Planning Authority to use a disused quarry on the outskirts of Kington as a tipping site. Objections were received to this site being used as a tip and the Ministry's decision is awaited. It would appear, however, that conditions which may be imposed on the district council, coupled with the cost of making good the access road to this proposed refuse tip, may prove the venture too costly.

#### REFUSE COLLECTION AND DISPOSAL (Continued)

In this event, the only foreseeable alternative is for the Council to tip another layer of refuse (approximately six feet in depth) on top of the existing tip. This could be carried out satisfactorily and subject to strict control, and should have a possible life of from two to three years.

#### SWIMMING BATHS

There are two swimming pools in Kington. One is an outdoor pool and is sited in the grounds of Kington Bilateral School, whilst the other is an indoor learner pool situated in the grounds of Kington Primary School.

Both of these pools obtain their water from the chlorinated mains supply. They have their own treatment and filtration plants and regular daily checks are made by their attendants to ensure that there is always a safe residual chlorine in the water when the baths are in use.

Three samples of water were taken from these pools and submitted for analysis. All samples were found to be highly satisfactory.

#### PUBLIC CONVENIENCES

Existing facilities are sited as follows:

Recreation Ground - Ladies and Gents. conveniences.

Town Centre - Ladies and Gents. conveniences.

In the past these conveniences have been found to be adequate for the needs of the town.

#### RODENT CONTROL

A treatment service is provided by the Council to both business and private premises. One of the Council's employees acts as part-time rodent operator.

Once again the only major sources of infestation of rats occurred at the Council's refuse tip. These were quickly and efficiently dealt with by poisoning.

#### HOUSING

Housing Standards and Fitness - The standard of fitness of houses throughout the urban district is based on that laid down in Section 4 of the Housing Act, 1957.

In the Ministry of Housing and Local Government report of the sub-committee on standards of housing fitness entitled "Our Older Homes" published in 1966, doubts were expressed about the uniformity of interpretation of Section 4, throughout the Country as a whole. It was hoped that a new standard of fitness capable of more uniform operation throughout the country would have been forthcoming.

HOUSING (Continued)Housing Standards and Fitness (Continued)

Whilst houses in the district are lacking some of the essential amenities and may be considered to be below a satisfactory standard compared with the existing council house standard in the district, they are not unfit. Every effort is made to encourage owners to bring these houses up to the '3 point scale' or preferably the '5 point scale' of the standard grant, either by correspondence or personal interview.

A further 11 dwellings were presented to the Council in terms of Section 16 of the Housing Act, 1957. Undertakings not to relet when the present tenants left the dwellings were obtained from the owners of these dwellings and accepted by the Council. One of these dwellings has since been vacated.

Private Housing - One new dwelling was erected during the year and five dwellings were under construction at the end of the year.

Council Housing - By the end of the year a full application in respect of Phase I of the development at Gravel Hill, Kington, had been prepared for submission to the Planning Authority. This showed proposals for fortytwo Council Houses and included:

- 12 - 3 bedroomed terrace houses
- 5 - 2 bedroomed terrace bungalows
- 7 - 1 bedroomed terrace bungalows
- 6 - 2 bedroomed ground floor flats
- 12 - 2 bedroomed maisonettes

Tenancy Allocations - The Council reviewed their existing policy for the allocation of houses and adopted a revised 'points scheme' for the selection of tenants of dwellings owned by the Council. This points system is to be used as a guide in allocating dwellings to prospective tenants, subject to any overriding discretion or variation being exercised by the Council.

IMPROVEMENT GRANTS

Discretionary - Although enquiries were received, once again no applications were made in respect of discretionary improvement grants.

Below are figures comparing the number of discretionary grants, and amounts approved, with figures for previous years:

| Year:                     | 1962  | 1963 | 1964 | 1965 | 1966 |
|---------------------------|-------|------|------|------|------|
| No. of grants approved    | 6     | 1    | 2    | Nil  | Nil  |
| Amount of grants approved | £1522 | £90  | £800 | Nil  | Nil  |

IMPROVEMENT GRANTS (Continued)

Standard - Eight applications were received for standard improvement grants to the full standard. Four of these applications were in respect of grants to the higher limit. They were all approved.

| Year:                  | 1962 | 1963 | 1964 | 1965 | 1966 |
|------------------------|------|------|------|------|------|
| No. of grants approved | 5    | 8    | 3    | 5    | 8    |

CARAVAN SITES

There is only one caravan site in the area. This is for an individual residential caravan. The site is kept in a satisfactory condition.

FOOD PREMISES AND FOOD INSPECTION

The main food premises in the town can be summarised as follows:

|                   |    |
|-------------------|----|
| Dairy             | 1  |
| Slaughterhouse    | 1  |
| Butchers          | 4  |
| Bakehouses        | 2  |
| Public Houses     | 12 |
| Cafe, Stores etc. | 20 |

---

|        |    |
|--------|----|
| Total: | 40 |
|--------|----|

---

Number of inspections carried out: 40

Food and Drugs Act, 1955, Section 16 - Premises registered under this section are as follows:

|  |                |
|--|----------------|
| Storage and sale of pre-packed ice-cream   | 10             |
| Preparation or manufacture of sausage meat | 4              |
| Total:                                     | <hr/> 14 <hr/> |

Number of inspections carried out: 14

During the year one bakehouse and attached shop closed down, and one grocery shop (which was also registered for the sale of pre-packed ice-cream) closed down. One new premises was registered for the storage and sale of pre-packed ice-cream.

The licence in respect of the one small private slaughterhouse was renewed for another year.

The only dairy in the district is licenced by the Herefordshire County Council.

FOOD PREMISES AND FOOD INSPECTION (Continued)

Food Inspections - A miscellaneous collection of tinned and other foodstuffs were inspected during the year and found to be unfit for human consumption.

Condemnations were made in respect of this foodstuff.

Meat Inspections and Condemnations

|  | Cattle<br>excluding<br>Cows | Cows | Calves | Sheep<br>and<br>Lambs | Pigs |
|--|-----------------------------|------|--------|-----------------------|------|
| Number killed<br>and inspected                                       | 8                           | 100  | Nil    | 42                    | 235  |
| <u>All diseases<br/>except Tuber-<br/>culosis and<br/>Cysticerci</u> |                             |      |        |                       |      |
| Whole carcasses<br>condemned   | Nil                         | Nil  | Nil    | Nil                   | Nil  |
| Carcases of which<br>some part or organ<br>was condemned             | Nil                         | 11   | Nil    | 3                     | 11   |
| <u>Tuberculosis and<br/>Cysticerci</u>                               |                             |      |        |                       |      |
| Whole carcasses or<br>part condemned                                 | Nil                         | Nil  | Nil    | Nil                   | 2    |

The reason for condemnation of part or organ of carcasses were mainly due to liver flukes, abscesses and cysts.

Food Hygiene (Markets, Stalls and Delivery Vehicles)  
Regulations, 1966

Market Hall - There is one stall in the Market Hall (a fruiterer and greengrocer) selling some open foods. He has stated that he intends providing a portable hot water supply unit which would be satisfactory. The existing public conveniences are approximately 30 yards from this building.

OFFICES, SHOPS AND RAILWAY PREMISES ACT, 1963

It is considered that duties in accordance with this Act tie-up with other duties carried out by a Public Health Inspector, and for this reason I have included the under-mentioned schedule listing the premises it has been possible to register in the time available to date.

| Year    | No. of applications<br>for registration | No. of premises<br>Registered | No. of<br>Inspections |
|---------|---|-------------------------------|-----------------------|
| 1965    | 39                                      | 3                             | 6                     |
| 1966    | 1                                       | 3                             | 9                     |
| TOTALS: | 40                                      | 6                             | 15                    |
